Mark's Bathrooms
SAFETY HOTLINE

FOR HOSPITAL DISCHARGE PLANNING TEAMS

For your home-resources list: one number for the shower.

When a patient is cleared to go home but the tub at home is the hard part, families need one licensed local call. Mark answers it himself.

TEXT MARK · OR CALL

(925) 786-0041

Mark answers personally, usually the same day. Texting is fastest.

markbathrooms-safety.netlify.app

WHAT TO SAY

"If the tub at home is hard to step over, here's a local number for a complete walk-in shower: text the Safety Hotline at (925) 786-0041, or call. You talk to Mark directly."

Complete shower only

It's always the complete shower: the bench, grab bars and handheld wand are part of it, never separate small jobs. Doing the whole shower is how the waterproofing gets done right, start to finish.

How referring works

1. Add the number to your home-resources list
2. Or hand the family a wallet card
3. Mark gets back to them personally, usually the same day
4. Free home visit and one written price

One complete package

- Tub out, low-step shower in
- Fold-down bench
- Real grab bars, anchored to the wall
- Faucet + handheld wand on a slide bar
- New easy-clean waterproof walls and pan

Starting at $12,995 · great value

A typical tile remodel can take a couple of weeks and leave grout lines to scrub. This is one package, done in days.
