Mark's Bathrooms
SAFETY HOTLINE

FOR DISCHARGE NURSES & CASE MANAGERS

One number to hand families: the Safety Hotline.

When a patient is going home and the tub is the obstacle, families need one simple, licensed call. Hand them this number.

TEXT MARK · OR CALL

(925) 786-0041

Mark answers personally, usually the same day. Texting is fastest.

markbathrooms-safety.netlify.app

WHAT TO SAY

"If the tub at home is hard to step over, text the Safety Hotline (or call). Licensed crew, one complete package, usually about 4 days. Tell Mark I sent you."

Complete shower only

One number covers the whole job: the bench, grab bars and wand come with the complete shower, never as separate small jobs. Doing the whole shower is how the waterproofing gets done right, start to finish.

How referring works

1. Hand the family a card, or text them the number
2. Or have them scan the code above
3. Mark gets back to them personally, usually the same day
4. Free home visit and one written price

One complete package

- Tub out, low-step shower in
- Fold-down bench
- Real grab bars, anchored to the wall
- Faucet + handheld wand on a slide bar
- New easy-clean waterproof walls and pan

Starting at $12,995 · great value

Design and sales by Mark. Construction by CDU-INC (Construction and Design by United), Lic. #889066.
A typical tile remodel can take a couple of weeks and leave grout lines to scrub. This is one package, done in days.
