Mark's Bathrooms
SAFETY HOTLINE

FOR PT & OT CLINICS

Patient can't step over the tub at home? One number for the shower.

When your home recommendations say the tub has to go, families ask who to call. Hand them one licensed local number.

TEXT MARK · OR CALL

(925) 786-0041

Mark answers personally, usually the same day. Texting is fastest.

markbathrooms-safety.netlify.app

WHAT TO SAY

"For the bathroom, text the Safety Hotline (or call): tub out, low-step shower in, with a fold-down bench, grab bars and a handheld wand. Usually about 4 days."

Complete shower only

If your plan calls for a grab bar or a bench, they come built into the complete shower, not as a standalone install. Doing the whole shower is how the waterproofing gets done right, start to finish.

How referring works

1. Give the family a wallet card, or text them the number
2. Or have them scan the code above
3. Mark gets back to them personally, usually the same day
4. Free home visit and one written price

One complete package

- Tub out, low-step shower in
- Fold-down bench
- Real grab bars, anchored to the wall
- Faucet + handheld wand on a slide bar
- New easy-clean waterproof walls and pan

Starting at $12,995 · great value

A typical tile remodel can take a couple of weeks and leave grout lines to scrub. This is one package, done in days.
