WHAT TO SAY

"If the tub is getting hard for her to step over, text Mark's Safety Hotline. Nothing fancy: a low-step shower with grab bars and a bench, done in a few days."

Complete shower only

Just so neighbors know: Mark doesn't do a grab bar or bench on its own. It's always the complete shower, because doing the whole shower is how the waterproofing gets done right, start to finish.

How referring works

1. Pass along a card or text the number
2. Mark talks to the family directly
3. Free home visit and one written price
4. Usually done in about 4 days

One complete package

- Tub out, low-step shower in
